OUR ADVANTAGE

As an established business within the motor trade, the Carnoisseur franchise concept offers far greater prospects than trying to 'go it alone'. With the help of a comprehensive franchise support package, our unique retail shops are easy to operate, manage and promote. The Carnoisseur package provide assistance in the following areas:

MARKETING

Marketing always plays an important role in the development of a business. To create maximum market potential, regular national advertising will support your business on an ongoing basis. Quality promotional material including point of sale literature, brochures and the Carnoisseur Catalogue will also be supplied as part of the marketing package.

TRAINING

Our comprehensive training programme is designed to cover all aspects of retail considered vital to success. The course teaches sales and management skills and imparts a thorough knowledge of the Carnoisseur operation.

PRODUCT SUPPLIES

Carnoisseur has already developed a strong alliance with major suppliers within the motor trade. As a result, a fast supply of merchandise at highly competitive rates can be guaranteed for both you and your customers. We also keep abreast of innovative new prodcuts and latest market developments to ensure our range of car accessories remains unbeatable.

SUPPORT CATALOGUE

With a circulation currently exceeding most specialist car magazines, the glossy Carnoisseur catalogue is a powerful marketing tool for promoting both franchise operations and sales of accessories.

FINANCE

The cost of opening a typical Carnoisseur shop is from £45,000 including stock, shopfittings, training etc. An initial investment of approximately £20,000 is required and Carnoisseur offers assistance in arranging the balance through one of the major clearing banks.

FRANCHISE LOCATION

Carnoisseur is also able to assist you with the selection and location of your shop.

DESIGN AND PLANNING

Once lease contracts and planning consents have been arranged, we will propose a full shopfitting specification and design layout reflecting the Carnoisseur corporate identify that has already proved so successful.

THE FRANCHISE RELATIONSHIP

Carnoisseur offers an opportunity for independence and profitability but the ultimate success of any business is determined by the commitment of its owner. Such a commitment is forged by a desire for success, personal accomplishment and job satisfaction. We are confident that Carnoisseur has minimised the risk of business ownership and that our programme is complete and accurate. Operating in a market place little affected by seasonal trends, we strongly believe that Carnoisseur offers a sound business opportunity with excellent profit potential. From the signing of the franchise agreement we will provide ongoing support to help your achieve your goals. Once you are up and running, regular contact will be maintained via telephone, email, periodic meetings and visits to your shop. We are always available to offer help and advice since your success and prosperity is important not only to you but also to the future growth of Carnoisseur.

THE FIRST STEP

We recommend you study our catalogue and visit a Carnoisseur shop to gain a broad insight into our unique business operation. If you like what you see and believe you have the ambition, enthusiasm and dedication to own and operate a Carnoisseur shop visit our website www.carnoisseur.com and click on Franchising for full details.

You will be able to view and download our prospectus and complete an on-line application form.

If you do not have access to the internet please telephone us on 01582 605600 during office opening hours: 9am-1pm and 2pm-5pm Mon-Fri and we will send you a copy of the information and an application form.

Carnoisseur Donegal are happy to accept payment for goods in Sterling or Euros. However, prices may vary due to delivery charges, differences in VAT and exchange rates.

OUR POLICY

SATISFACTION GUARANTEED

We want you to be pleased with all the goods bought from Carnoisseur. If the goods sent to you are not acceptable please return the order within 14 days in a resaleable condition, in the original, undamaged packaging, carriage paid, and a refund will be issued.(Providing the goods returned have not been specially ordered or manufactured to meet your specific requirements.)
This does not affect your statutory rights.

DELIVERY

All orders will be despatched within 24 hours, stock permitting. We endevour to keep delivery charges to a minimum. Please telephone for estimate.

PRICES

In past years most of our printed prices have been maintained for a full 12 months after the publication of the Carnoisseur Catalogue.
However, occasionally cost changes are inevitable due to inflation and exchange rate fluctuations on imported goods. We therefore reserve the right to change prices without notice.
As this catalogue is published in the UK all prices shown are in Pounds Sterling and include VAT at the UK rate.
Carnoisseur Donegal are happy to accept payment in Sterling or Euros. However, prices may vary due to differences in VAT and exchange rates.

ORDER QUERIES

Please first check for our comments on all documents enclosed with your order.

A quick telephone call to 074 91 40171 will, in most cases, be the simplest and most efficient way of answering any queries that may arise from your order. Please have ready the sales invoice supplied with goods.

VAT

All goods in this catalogue are priced including VAT at the current UK rate. Irish prices will vary as the VAT rate in the Republic is different.

CAMBRIDGE

ENGLAND

"There's no such thing as a typical customer", says Rupert who runs the Carnoisseur shop in Cambridge, "but they all demand quality products at realistic prices."

Established in 1998, the Cambridge shop is a must for local modified car enthusiasts. Many customers rely on the branch's invaluable experience and knowledge to help them select the most suitable products from the extensive Carnoisseur range.

Customer interest extends throughout the range but particularly popular lines include performance air induction kits, alloy wheels, tyres and graphics and number plates which are manufactured on site to your specific requirements.

Whether it is lowering your car, upgrading the sound system, or fitting the wildest bodykit, Carnoisseur Cambridge are more than capable of satisfying your needs. A good level of stock combined with an efficient special order service means you can get what you require rapidly and without any fuss.

ISLE OF WIGHT

ENGLAND

Located in the picturesque town of Shanklin this stylish outlet draws enthusiasts from all over the island.

This Carnoisseur store on the Isle of Wight opened late in 2003. For many years the store was a traditional car accessory shop and the addition of Carnoisseur has extended the range. Many replacement parts and service items etc are still available and the staff are particularly knowledgeable in these areas.

"Customer service is our number one priority," says store manager Andy. "We keep a superb level of stock but our real advantage is our massive range which can be ordered for express delivery."

Whatever your requirements from a spark plug to a set of alloy wheels and tyres – Carnoisseur Isle of Wight will be able to help.

The Isle of Wight store also has full fitting facilites, including a Rolling Road, in nearby Sandown.

MILTON KEYNES

ENGLAND

Brand new store for 2006 at the newly built Old Stratford Local Centre to the North of Milton Keynes centre. Easy reach from the A5.

Store owner Gary is enthusiastic and knowledgeable with a background in Formula One racing. He states "We have a great opportunity here in Milton Keynes. There are a large number of car enthusiasts and regular meets, but now we can offer a credible and dedicated source of performance parts and advice".

Gary is a real Ford enthusiast and keen to chat about anything 'Cosworth'. Sales manager Ross also has a very broad range of motoring interests.

The store has a large stock holding with an emphasis on 'serious-tuning parts'. Mobile fitting of ICE equipment is also available.

CARNOISSEUR

HAVERFORDWEST

WALES

Located in Haverfordwest, the heart of West Wales, the branch serves a wide area with quality performance tuning parts. Enthusiasts of all ages benefit from the high standards of service offered by Carnoisseur West Wales.

Since Phil and Wayne opened their shop just over three years ago, they have worked hard to build up a loyal customer base. This has paid off with new customers attracted by personal recommendations and general "word of mouth" promotion. The shop has an excellent local reputation both for its range of products and the first class advice available.

The branch specialises in Performance Air Filters, Lowering Kits, Carbon Fibre Bonnets and Bodystyling. In fact Carnoisseur in Haverfordwest can satisfy all your modifying needs.

2003 saw a huge demand for 'Jap' import performance parts with HKS, Curco and Apexi brands featuring heavily.

A range of remote control cars is also available, Tamiya etc plus the Haverfordwest is a registered Go-Ped centre.

Phill and Wayne at Carnoisseur Haverfordwest would like to thank all their old customers and friends and welcome all future ones.

BALLYMENA

IRELAND

The Carnoisseur shop in Ballymena covers a floor area of 400sq ft, and is run by owner/operator Gilbert Erskine and his father, Alan, who pride themselves on the excellent local reputation of their business.

"I get on very well with my customers and our success is due to our close relationship," says Gilbert. "Many of them are young drivers wishing to modify their cars without having to spend a fortune. That's where the Carnoisseur range of realistically-priced products makes my job easy. They also often want quick delivery and, unlike many outlets in Northern Ireland, I can usually guarantee this plus we can offer a delivery services via our own specially tuned van!"

Ballymena branch provides an in-store graphics and number plate facility which is very popular. Combine this with the on-site fitting facilities, car-wash and late night opening on Thursday and Friday and it's easy to see why Carnoisseur is the number once choice for performance tuning in Northern Ireland.

The shop was re-fitted in 2002 providing a warm and friendly environment to freely browse the unrivalled range of products and services available. "There's a marvellous atmosphere which makes you feel as though you're part of a friendly Carnoisseur Club."

DONEGAL

IRELAND

Located in the tranquil surroundings of Carrigans, Carnoisseur Donegal services the whole of Southern Ireland via their large 2000 sq ft showroom, and mail order operation. The store also benefits from ample customer parking, 10,000 sq ft storage capacity.

Leo and Frank McGurk are dedicated to helping you and offering the very best service, facilities and advice available. They realise that the secret of success is directly related to value, range and customer satisfaction.

Leo states, "we're different to a high street multiple whose service ends as soon as you leave the store. We know that many of our customers rely on us to help them make the right decisions and we have the knowledge to help them avoid the pitfalls."

Full car graphics and number plate facility is available on-site.

All prices shown in this catalogue are quoted in pounds sterling but Carnoisseur of Donegal are happy to accept Sterling or Euros, however prices may vary due to delivery, VAT and exchange rates.

McGard

1 MCGARD LOCKING WHEEL NUTS

McGard's Locking Wheel Nuts, manufactured in the USA to ultra high specifications, are designed both for original equipment and aftermarket alloy wheels. Renowned worldwide for their superb quality, they are supplied as original equipment to Mercedes Benz and other top grade car importers.

Please state make, model and year of vehicle when ordering.

McGard also offer a unique service for replacement keys.

143 1657 **(set)** **£34.99**

2 McGARD TUNER WHEEL LOCKS

Designed specifically for the latest design of alloy wheels which have multiple bolt holes or a very narrow appeture e.g. BK Racing, Enkei, Kosei. Due to the small diameter of the bolt holes, normal lock nuts cannot be used. The Tuner locks are made to the same exacting standards as the normal locks, but slimmer for the narrower wheel bolt appeture. Substantially lighter while taking safety dependeability and security to the next level.

Please state make, model and year of vehicle when ordering.

143 1668 **(Set of 4)** **£47.99**

3 CHROMED TYRE VALVE CAP & SLEEVE

1 POLYURETHANE SUSPENSION BUSHES

Suspension bushes are one of the most highly stressed components fitted to a motor car. They undergo enormous strain, in the most arduous of conditions with no maintenance or lubrication. Conventional rubber bushes deteriotate with age allowing movement of suspension components and geometry. This can cause tyre wear, braking instability and poor handling.

Powerflex bushes are made from a technologically advanced polyurethane plastic compound. This compound overcomes the common problem associated with harder bushes which is increased noise. By correctly engineering the polyurethane compound, bushes can be made 25-30% stiffer than new rubber bushes, but with exactly the same noise absorbing properties.

Powerflex bushes are fitted with stainless steel inserts, where required, thus avoiding the corrosion problems associated with cheaper steel bush inserts.

2 ENGINE MOUNTS

Manufactured in the same technologically advanced polyurethane plastic compound as the suspension bushes.

See table for price and applications.

3 BUMP STOPS & DUST COVERS

These new style progressive rate polyurethane bump stops provide bump protection and ride height control and the rubber bellows are designed to protect the shock absorber centre rod. The bump stops are designed to fit all sizes of shock absorber. With this new product, shock absorber life will definitely be prolonged.

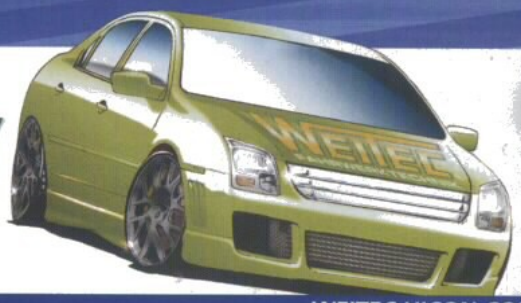
WEITEC FAHRWERKTECHNIK



1 HICON COIL-OVER KITS

1 WEITEC COIL-OVER KITS

Coil over kits from the Hicon series enable the sports driver to realise his wish for individual lowering. Thanks to adjustable aluminium spring seats the chassis height can be optimally positioned. Shortened zinc bodies and the use of racing springs allow lowering rates of up to 90mm and more. The use of high quality materials and in particular special bump stops and dust cups guarantee driving comfort.

HICON GT COIL-OVERS

This is the new, economical shock absorber system with non adjustable shock characteristics. Weitec have used all their experience in countless tests to give you the best set up possible to guarantee driving comfort and safety.

146 5575 from £365.00

HICON TX COIL-OVERS

Shocks are adjustable after installation. With this mature shock technology the user can adjust the rebound characteristic from outside to suit all situations. The sometimes shortened struts are combined with other high quality components in an oil bed to meet our exacting requirements.

146 5576 from £500.00

HICON GTN

Economical shock absorber system with prefixed characteristics. A sliding height adjustment on the front axle and adjustable spring plates on the rear axle.

146 5577 from £325.00

2 ULTRA GT SPORTS KITS

High quality, economical complete systems. By combining Weitec sport springs for exact lowering and shock absorbers from the GT-system, we can satisfy the most demanding wishes. The modern and high quality components used in GT shock absorbers guarantee a long life and allow for an exact set up. The shortened GT-systems not only offer satisfactory spring tension but also a good amount of spring travel and driving comfort.

AVAILABLE FOR NEARLY EVERY MAKE AND MODEL. PLEASE ENQUIRE FOR YOUR VEHICLE.

146 5578 from £240.00

3 SPORTS SPRINGS KITS

High quality Chrome Silicium steel. They are tempered, surface finished with a Zinc phosphate coating and then epoxy coated. All sport springs from WEITEC are supplied with full instructions, quality sheet and TÜV certificate. Almost 800 various spring kits available with up to 6 different lowering kits for all sorts of makes. Thanks to the versatility of these springs lowering of up to 40 mm is often possible without special shock absorbers.

AVAILABLE FOR NEARLY EVERY MAKE AND MODEL. PLEASE ENQUIRE FOR YOUR VEHICLE.

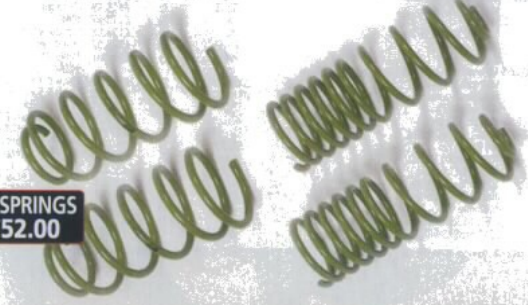
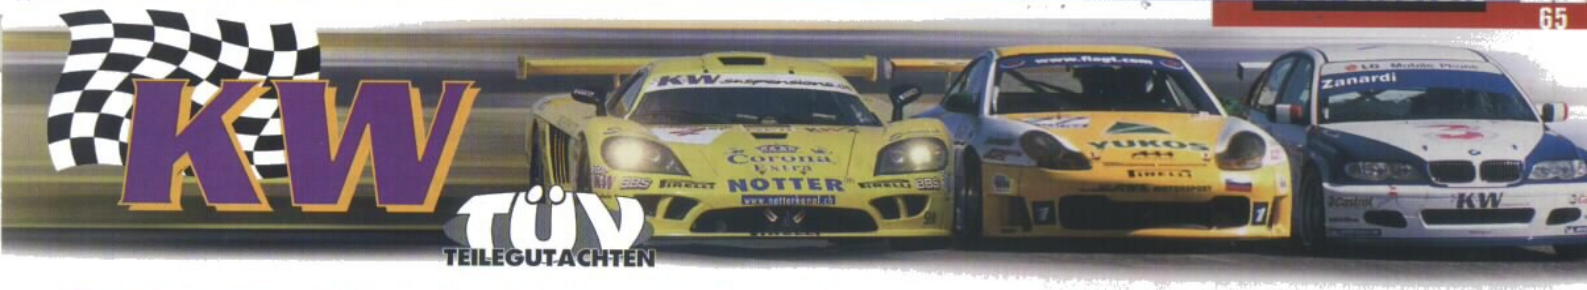
3 ULTRA GT KITS FROM £240.00



3 SPORTS SPRINGS FROM £52.00



The initials KW, and the trademark colours of yellow and purple, stand for individuality, quality and security.

1 VARIANT 1 COIL-OVER KIT

Adjustable ride height with fixed rate damping. Perfect balance between sporty handling and comfort. An excellent fast road entry-level coil-over kit.

Massive range available, see table for examples. Please enquire if your car is not listed.

144 5565 from **£459.00**

2 VARIANT 2 COIL-OVER KIT

Adjustable ride height system with adjustable damping (rebound force), allowing you to fine tune the handling and comfort level. Front units are adjustable on the car whilst some of the rear units will have to be removed to adjust the damping rate.

Massive range available, see table for examples. Please enquire if your car is not listed.

144 5566 from **£619.00**

3 VARIANT 3 COIL-OVER KIT

A Race technology for the road with adjustable compression and rebound damping. state-of-the-art suspension. 3 individually adjustable components for tuning the compression of the damper in the low-speed range, while the highspeed set-up, so decisive for driving comfort, has been preset by KW engineers.

Massive range available, see table for examples. Please enquire if your car is not listed

144 5567 from **£849.00**

4 KW SPORTS SUSPENSION KIT

High quality KW springs and matched sports shock absorbers. The sporty, harmonised tuning delivers excellent road-holding and safety, without the uncompressing loss of residual comfort.

Available for most makes and models please enquire for your requirements.

146 5568 from **£285.00**

5 KW SPRING KIT

OEM quality. Reduce ride height by up to 60 mm. In addition to the improved looks, the lowered centre of gravity contributes to increased agility and driving pleasure. Lowering springs up to 40 mm can be used with standard shocks though the use of sports shock absorbers is recommended, and is a compulsory requirement for any further lowering.

146 5569 from **£85.00**

6 KW SHOCK ABSORBERS

Highly developed, tuned per application. High quality components and extremely durable finish. Shortened stroke.

Available for most makes and models please enquire for your requirements.

146 5570 Front from **£69.72**
146 5571 Rear from **£66.48**

1 ANTI-ROLL KIT

The Eibach Anti-Roll Kit allows further refinement of the driving properties of your vehicle. Installation of the Anti-Roll reduces lateral rolling of the body, thus enhancing the sporty driving behaviour in combination with Eibach suspension components. This additional stability provides even more driving please under all conditions. The Anti-Roll Kit is optimally tuned to the Pro-Kit Lowering Springs and adjusted fully compatible to Sportline Kits. It may, however, also be combined with original equipment springs in the event, that a lowering of the vehicle is not desired.

2 PRO-SPACER

Eibach pro-Spacer is the ideal combination for use with the Eibach Pro-Kit Lowering Springs. If the original or aftermarket wheels are missing that last optical 'kick', with the Pro-Spacer installed the car looks wider and better as the wheels fill the arch. By increasing the track width, not only is the appearance improved, you also achieve an optimised driving behaviour combined with high stability.

The Pro-Spacer is made from high tensile aluminium alloy and is available in different widths from 5-30mm to suit your specific vehicle. Please enquire for your vehicle.

3 PRO-KIT LOWERING SPRINGS

Eibach's considerable experience in world motorsport has culminated in this outstanding range of Sport Springs, developed specifically for road use. These progressive springs offer guaranteed improvements in handling, performance and style. Please see table for prices, applications and lowering. State make, model and year of vehicle when ordering.

148 9088

4 SPORTLINE ULTRA-LOW SPRINGS

For the ultimate in sport springs Eibach have developed the Sportline Ultra Low Spring kits. Performance and style are optimised while providing a firmer stiffened ride. Made for the young enthusiast, wanting a very sporty driving behaviour and more aggressive look of the vehicle. Lowering up to approximately 50mm.

148 9083

5 PRO-STREET COIL-OVER KITS

Pro-Street kits allow the driver to adjust the height of their vehicle and at the same time, the performance of the dampers. Eibach coil-over kits are successfully used by national and international motorsport teams. Ride height adjustment from 20mm to 70mm lowering. The true performance suspension solution.

148 9082

6 PRO-DAMPERS

Professional quality shock absorbers. The unique internal valving system engineered by Eibach provides a highly responsive and accurate suspension component for all driving conditions. Combining a Pro-Damper Kit with Pro-Kit Lowering Springs ensures an unrivalled suspension package tuned to optimise handling.

Eibach® SPRINGS THE WILL TO WIN

PERFORMANCE SUSPENSION TUNING

EIBACH CAMBER ALIGNMENT KITS

When you change your vehicle's ride height you can expect to change your vehicle's suspension geometry as well. Most severely changed is camber. This will effect both your tire wear and how your vehicle handles. By tuning your suspension with an Eibach Camber Kit you can save your tyres and bring back handling. Restore ride quality and appearance at the same time.

See table below for prices and applications. *Part No. 148 9078*

DISCOVER WHAT SUSPENSION TUNING CAN DO FOR YOU

- Extend your tire life
- Improve handling
- Enhance appearance
- Increase tire-to-road contact
- Restore ride quality

***Eibach UK* now features SPC Performance Kits.**

A complete solution for solving camber problems when lowering some of today's most popular vehicles. These kits are for correcting alignment angles as well as some wheel clearance problems.

Gmax®

SPRING KITS

Lowered and progressive rate sports springs. Offers around 30mm-40mm drop in most instances. Surface shot peened zinc phosphate and powder coated.

146 5572 **FROM £48.83**

SUSPENSION KITS

Teaming up a set of performance Gmax shocks and springs; you are guaranteed better handling than ever.

146 5573 **FROM £208.62**

SHOCK ABSORBERS

Race bred, uprated internals. Shortened piston rods prevent spring dislocation. Drastically reduce body roll. Please note; Gmax Shocks will only work with Gmax springs.

146 5574 **FROM £20.45**

HEIGHT ADJUSTABLE & CUP KITS AVAILABLE FOR MANY CARS Call for full application/price list

1 APEX SPORT SPRINGS

Quality lowering Sport Spring kits manufactured by Apex to ISO 9001/9002 standards. All kits are extensively tested and carry TUV approval. Guaranteed to improve the handling and looks of your car. Lowering up to 60mm.
5 year unlimited mileage warranty.

See table for prices and applications. Massive range available, please enquire if your car is not listed.

Part No. 148 9087

2 APEX SPORT KITS

A full set of Apex lowering Sport Springs matched to specially developed Gas Shock Absorbers will transform the handling and roadholding of your car, greatly improving your enjoyment of driving. Ride height is lowered 25-60mm depending on application.

See table for prices and applications. Massive range available, please enquire if your car is not listed.

Part No. 146 5559

3 APEX RACING COIL-OVER KITS

The Apex Racing Kit consists of four lowering springs with matching shock absorbers that offer the possibility of lowering the car anywhere up to 85mm.

Full adjustability of both damping and ride height. Both adjustments can be performed smoothly without the need to remove the set from the car. The shock absorbers offer 22 adjustment positions, so they will always allow the owner to tune in a preferred combination of handling and ride.

Race bred design and performance for the road. See table for prices and applications.

1 KONI SPORT SHOCK ABSORBERS

Ferrari, Aston Martin and Lamborghini are among the top marques which feature KONI as original equipment. Every Koni shock absorber is individually developed and matched to specific car characteristics and performance potential. The Koni Sport damper is for the high performance driver: For lightning acceleration, effective barking, reliable steering at high speeds and extreme driving conditions to get the most out of your car. Applications marked with * in the table are Top Adjustable by means of a knob without removal from the car. The rest are adjustable but may have to be removed from the vehicle.

145 1662 from £54.00 each

2 KONI SPORT SUSPENSION KITS

Consist of 4 Koni Sport adjustable shock absorbers, lowered springs and Powerflex bumpstops. These allow you to tune the handling and ride to suit your style or mood. Most kits have dampers which can be adjusted on the car by a simple turn of the knob at the top of the shock. Lowers car 15-40mm. See table for prices, applications and lowering.

146 5552 from £350.00

3 KONI ROAD SUSPENSION KITS

All the performance, comfort and quality you expect from Koni at an incredibly low price. The kits contain high performance lowered springs and 4 Koni Special shock absorbers. These shock absorbers are adjustable by simply compressing the shock and turning the body. See table for prices, applications and lowering.

146 5553 from £234.23

4 HEIGHT ADJUSTABLE SUSPENSION KITS

Developed for the race track, but now available for the fast road user. Externally adjustable dampers with adjustable spring platforms (where application allows) provide lowering adjustment by up to 65mm, and give superb handling and stance. See table for prices and applications.

146 5554 from £695.00

5 KONI SPORT SPRINGS

NEW! KONI Sport Springs fit virtually every car brand and model, give a lowering up to 45mm and are compatible with standard shocks or KONI Sport Shocks. The perfect start for a lower and better looking car.

from £59 to £129 per set

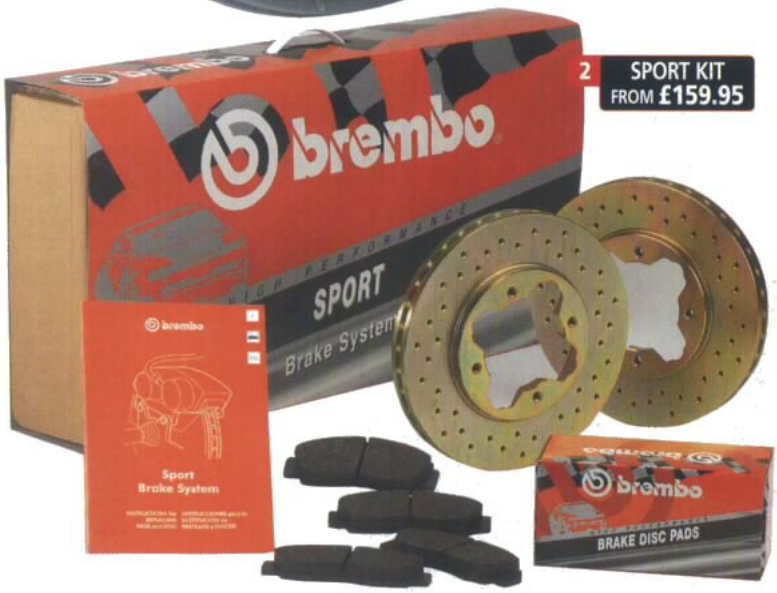
1 BREMBO MAX DISCS FROM £39.36 PER PAIR



2 SPORT KIT FROM £159.95

Brembo is the leading name in World Motorsport braking systems. Brembo's production process is unmatched and quality is unsurpassable. Brembo's brake components ranging from traditional cast iron rotors to advanced metal matrix callipers, are manufactured in state-of-the-art facilities located in plants across the globe to meet the extreme demands of today's performance and race markets.

1 BREMBO MAX DISCS

An exclusive design, with asymmetric grooves projecting outwards, ensures that Brembo Max discs disperse any water present in a more efficient manner, resulting in improved performance. Max discs also considerably reduce stopping distances, give an excellent resistance to fade, efficiently remove gasses between disc and pad as well as deglazing the brake pad...plus they look fantastic too!

Please state make, model and year of vehicle when ordering. Supplied in pairs.

170 2625 **FROM £39.36 PER PAIR**

2 BREMBO SPORT KITS

Kit includes 2 Sport Brake Discs and 1 set of Sport Brake Pads. Choice of Slotted or Drilled brake discs. Developed to give outstanding braking in any driving conditions. Brake pad material developed to give constant friction even in the toughest circumstances.

Please state make, model and year of vehicle when ordering plus whether you require drilled or slotted discs.

170 2628 **KITS FROM £159.95**

3 BREMBO GRAN TURISMO BRAKE SYSTEM

Complete brake upgrade kit including disc, pads, uprated Brembo calipers and fitting kit where required.

Gran Tourismo kits come with the option of calipers in Black, Red or Silver.

The ultimate performance stopping solution.

GROOVED AND CROSS DRILLED DISCS

PERFORMANCE BRAKE DISCS

1 NATIONAL PERFORMANCE BRAKE DISCS

Grooved and drilled brake discs designed and manufactured for uncompromising performance. They allow quicker cooling and greatly reduce the fading process. Uprated discs, such as these, are vital when modifying your car's engine as more BHP requires more stopping power.

National brake discs guarantee higher safety in every day and performance driving conditions.

Supplied in pairs and available for most vehicles as listed. Rear brake discs also available, please enquire for details.

2 POWERSTOP PERFORMANCE BRAKE KITS

These kits comprise of a pair of National performance brake discs and a set of FERODO DS2000 brake pads. Outstanding braking performance at an affordable price.

Front and rear kits are listed where applicable, to provide all-round improvements for performance vehicles.

See table for prices and applications.

FERODO™

1 FERODO DS PERFORMANCE BRAKE PADS

Introducing the Millennium DS2000 range of high performance brake pads.

Designed for the driver who demands the ultimate in braking performance, DS2000 provides a level of performance normally associated with racing cars – all without the need to build up and maintain high operating temperatures. With DS2000, low and high speed braking efficiency, reduced stopping distances and consistent brake pedal feel are yours from cold – first time every time. DS2000 is the drivers choice for safe high performance braking.

All pad sets are supplied in sets of 4, ready to fit. They are suitable for use with National, EBC, Brembo, Rotor Disc, Black Diamond and all original equipment discs. Pad sets also available for many vehicles not listed and for rear brakes, please enquire for details.

ZEROSIXTY PERFORMANCE COMPONENTS

1 ZEROSIXTY BRAKE DISCS

Zero Sixty performance products are designed and manufactured specifically for the Fast Road market.

Unique dimpled and grooved pattern - both for better image and for better performance. The dimples eliminate the thermal cracking that can be found in drilled discs. Benefits also include brake fade reduction and deglazing of the pads.

See table for a selection of prices and applications. Please enquire if your car is not listed. Supplied in pairs.

170 2640 from £70.50 pair

2 ZEROSIXTY CLUTCH KITS

Optimum performance is maintained by additional clamping force, high grade woven asbestos free friction material and exceptional torque transmission qualities. Tested to 13,000rpm at 200 degrees C.

Designed for popular performance models and feature uprated friction materials and components.

ROTORDISC BRAKES

- Rotor Discs are direct replacements for original discs without any modification.
- Enhanced cooling due to the RotorDisc design encouraging air flow through the disc.
- The Rotor Disc design also reduces the weight of the discs making them the lightest direct replacement discs on the market, reducing the weight by approx 10%. Reducing unsprung rotational weight in turn improves acceleration and reduces Gyroscopic effect improving handling. Example: Audi TT a saving of 1.36kg on the front discs alone.
- 16 grooves give increased friction improving stopping power and allowing hot gasses to escape whilst stopping the disc and pads from glazing over, keeping stopping power throughout the life of the discs.
- Unichrome Zinc plated to help prevent rust on upswept surface.
- Rotor Discs have been designed to be gentle on pads whilst maintaining stopping power.
- Rotor Discs are available for all road cars and most 4x4s. See table for prices and applications. Please enquire if your car is not listed

1 GREEN STUFF PADS

FAST ROAD. Designed for premium street driving offering new standards in performance braking. Gives confidence from first application of the brake pedal. There is no such thing as a NO DUST pad, but the EBC pad creates less dust and dust is more easily washed off than most.

170 2627 from £32.07

2 RED STUFF PADS

ULTIMATE FAST ROAD. Ceramic Formula. This is a truly impressive fast road pad for repeated heavy braking. It emits far less dust than semi-metallic pads and has been proven to stop a saloon car 13 metres quicker than OEM pads from 100mph/160kph.

Features EBC Brake-InTM surface coating which conditions rotor surface and accelerates pad bed-in.

170 2643 from £39.60

3 YELLOW STUFF 'R' PADS

TRACKDAY PADS. Although a full race material and capable of high temperature use with very good wear life, this new formulation sets a new trend in race type brake pad compounds. The 'bite' from cold is superb which is uncommon with race materials (normally requiring warm-up) and makes this a pad which can be safely used on the highway as well as on the racetrack. New formulation used by numerous championship race and rally drivers. Truly a milestone in brake pad material development.

170 2644 Please enquire for prices

4 EBC TURBO GROOVE DISCS

New Wider slot draws cool air across the pad surface keeping pads and rotors cooler. They also expel dust, dirt and hot gases better than fine slots which eventually fill with rust and scale and become ineffective in our opinion.

The blind-drilled holes break down surface gases when braking from speed but do not weaken the rotor cross section as can happen with through drilling, thereby lessening the chance of rotors cracking over time and heavy use.

Gold zinc anodised. Recommended for use on any performance or modified vehicle.

See table for examples of prices and applications. Please enquire if your car is not listed.

170 2626 from £72.85

Goodridge brake line kits use the finest quality materials manufactured using a high tensile stainless steel outerbraid with a PTFE innercore. Unlike some cheaper kits, the Goodridge hoses feature plated steel fittings swaged onto the braided hoses making them totally road legal (TUV/FMVSS106).

Dramatically improves the stopping distance while giving a firmer, more responsive pedal feel. Goodridge brake lines offer confidence, performance and a lifetime guarantee. Goodridge stainless steel braided brake lines have become the standard in racing where the ultimate braking is required. As used by the World's top Rally, F1, Indy and Nascar teams.

Available for all makes and models. Please phone for prices.

Mongoose Performance Exhausts

The only stainless steel exhausts to be designed and manufactured by a serious tuning company.

The systems are formed from 1.5mm wall T306 stainless steel tube on state of the art CNC machines. Mandrel bent (not cut and weld). the silencers are formed from polished stainless steel and packed with the highest quality materials available.

The systems are finished with a choice of highly polished tail pipes, and their own tests have shown that a Mongoose will give more power than any other aftermarket exhaust system. Mongoose - The essential performance exhaust system.

REMUS

SPORTEXHAUST

1 REMUS PERFORMANCE EXHAUSTS

Remus produce one of the largest ranges of sport exhausts worldwide. Made in Austria to the highest standards using only top quality materials, all Remus exhausts are extensively dyno developed and designed using experience from their involvement in Formula 1, Rally, Touring Cars and many other forms of motorsport.

Remus road legal sports mufflers reduce back pressure by between 35% and 85%, resulting in a performance gain of approximately 3-5%, in addition to a positive gain in fuel economy. The decibel level will remain similar but the exhaust note will be deeper and more aggressive – without being annoying!

Manufactured entirely from stainless steel the range is offered with numerous innovative tail pipe options. Remus offer more than 40 tailpipe designs including the new Titanium & Stainless Racing Line options plus the unique Carbon Fibre design. Please contact us for tailpipe options on your vehicle.

50 years experience guarantees Supersprint parts are of the highest quality available. Performance is king and each system is designed to optimise torque & power over the driving RPM range. Stringent quality control gives you trouble free fitting. You can be assured of the elegance & style which comes with these internationally acclaimed products. The range of cars Supersprint systems are available for is probably the largest from any one company. The table above shows only a fraction of the range so please enquire if your car is not listed.

Supersprint exhausts are suitable for road use and mostly interchange with o.e.m. parts. Most rear silencers have alternative tail pipe designs available, please enquire.

Supersprint also produces a range of racing exhausts and de-cats for track use.

1 B&M SHORT SHIFT LEVERS

- Engineered to substantially shorten shifter throw
- Racing quick-shift performance
- Simple DIY installation with full instructions
- CNC machined from 303 Stainless Steel & 6061-T6 Aluminium
- Backed by a limited lifetime warranty

B&M short shift levers give you quicker, more precise gear shifts and make your vehicle more fun to drive. These beautifully engineered items are simple bolt-in replacements - the only tools required are simple hand tools. B&M shifters are supplied with an attractive machined stainless knob where marked(*). All shifter shafts are threaded to accept most factory or aftermarket gear knobs. Suitable for lift-up reverse applications as well. B&M also offer you a lifetime warranty. If performance means everything to you, let B&M give you the edge. Optional B&M gear knobs available, see table for details, including Button Gear Knobs (ideal for nitrous installing).

177 5421 **FROM £39.09**

2 B&M GEAR KNOBS

These sturdy universal knobs incorporate the latest styling as well as ergonomic design. Quickly and easily fitted via an innovative stick locating/locking method that keeps the mounting method invisible. Fits up to 16mm thread diameter.

Three Hi-tech cylindrical billet button knobs can be used to control any 12-volt function in your vehicle. They feature a momentary switch in a billet aluminum anodised knob. Suitable for nitrous, roll control or line lock systems. Fits metric thread sizes: M16x1.5, M12x1.75, M12x1.25, M10x1.5 and M10x1.25. Height: 3.75". Available in Red, Blue or Silver.

See table for prices and descriptions.

COOL IT® Thermo Tec Racing Products

1 EXHAUST INSULATING WRAP

Create more horsepower and reduce temperatures under the bonnet. Wrapping headers maintains hotter exhaust gases that exit the system faster. Increased exhaust scavenging, as well as lower intake temperatures. Withstands continuous heat up to 2000F. Contains no asbestos. Controls heat build-up and dissipation. Available in Natural or Graphite Black colours, 1" or 2" wide.

	Natural	Graphite
175 3550 1" x 15ft	£11.70	£12.82
175 3551 2" x 15ft	£18.99	£20.36

175 3553 2" x 50ft	£63.34	£67.54

2 GEN II COPPER EXHAUST WRAP

Copper Header Wrap improves heat resistance up to 30% more than current insulating technology. 1" or 2" wide. Add the spray on Hi-Heat Copper Coating to improve performance even further.

175 3554 1" x 50ft	£41.83
175 3555 2" x 50ft	£69.68
175 3568 Hi-Heat Coating	£16.47

SNAP STRAPS (Not Shown)

Stainless Steel straps to secure the exhaust wrap.

175 3574 9" Long (12pack)	£35.97
175 3575 18" Long (6pack)	£23.56
175 3576 V8 Kit (9"x8, 18"x4)	£39.67
175 3576 V6 Kit (9"x6, 18"x4)	£33.63

3 HIGH-VELOCITY EXHAUST JACKETS

An innovative way to insulate and block radiant heat. Covers tubes vertically allowing a consistent fit and the exhaust system can expand without restriction at operating temperature. Provides air space for added insulation. Can with fitted without removing manifold.

175 3557 4-6cyl Kit	£102.59
175 3558 8cyl Kit	£134.06

4 CLAMP-ON HEAT SHIELD

Flexible shield blocks more than 90% of damaging radiant heat from the exhaust. High-tech composite construction. Complete with all clamps. Fits in minutes.

175 3559 1ft Kit	£29.08
175 3560 2ft Kit	£44.19
175 3561 3ft Kit	£59.35

5 HEADER MANIFOLD BLANKET

Excellent heat retention for headers and manifolds. Flexible heat shield smply clips into place. The fabric side of the material faces the heat source, aluminised side faces away. Available in 2 different kit: Two 20"x24" blankets for V6 and V8 applications or a 36"x40" blanket for straight 6 and 4 cylinder engines.

175 3562 V6 & V8 Kit	£120.66
175 3563 4cyl & straight 6 Kit	£113.44

6 TURBO INSULATING KIT

Improve performance. Universal kit will keep the turbo spooled up and virtually eliminates turbo lag. The custom cut-to-fit kit comes with ample material for all turbo sizes.

175 3564 4cyl Kit	£135.59
175 3565 6/8cyl Kit	£158.39

7 HI-HEAT COATING

Use to finish off a clean and well-protected exhaust wrap. Metallic-based coating will protect the wrap from abrasion and harmful liquid. Extra resins and binders toughen the surface and help extend the life of the wrap. Choice of 3 colours. 11oz.

175 3566 Black	£13.57
175 3567 Aluminium	£14.10
175 3568 Copper	£16.47

THE POWER OF COOL

The CryO² is a revolutionary new, award wining product designed to reduce the temperature of the air/fuel intake charge thus creating power. Through the science of aerodynamics and cryogenics, Design Engineering has developed a system to harness the cryogenic properties of liquid CO^2 to lower the air/fuel intake charge by up to 60%.

The system is modular and can be easily expanded. The CryO² system provides two methods of cooling the air charge and one method of cooling the fuel charge, all utilising the same burst of liquid CO^2. CO^2 is readily available at any welding supply shop or where paintball guns are charged.

1 CRYO² TANK & INSTALLATION KIT

The foundation to every CryO² System. Must have this kit to utilize CryO² components. The kit includes a 5 or 10lb tank, cryogenic solenoid valve, all necessary fittings, 14 ft. stainless steel hose, switches and wiring kit. Only one kit is needed to operate all the CryO² components. Tanks supplied empty.

175 3513 5lb Tank & Kit	£422.41
175 3514 5lb Spare Tank	£218.75
175 3515 10lb Tank & Kit	£445.03
175 3516 10lb Spare Tank	£241.38

2 CRYO² INTERCOOLER SPRAYER

The most effective way of cooling the air charge. The Intercooler Sprayer mounts directly to the front of the intercooler or aftercooler and vents the liquid CO^2 onto the cooling fins, thus enhancing the performance of the intercooler by more than 50%. This component must always be the last in the CryO² system as it vents the liquid CO^2 charge.

175 3517 Front Mount, 16"x5"	£111.63
175 3518 Front Mount, 8"x4"	£96.55
175 3519 Top Mount, 16"x5"	£111.63
175 3520 Top Mount, 8"x4"	£96.55
175 3521 Front Mount, 19"x9"	£211.21

3 CRYO² CRYOGENIC AIR INTAKE

Consists of an aerodynamic bulb with a cryogenic chamber which is mounted in a 4" segment of air tube. The air passes over the cooling bulb resulting in a colder, denser, more powerful charge. Dyno testing showed a reduction in intake air temperature of more than 50 degrees. The CryO² Air Intake can be used on turbocharged, supercharged or naturally aspirated applications. Multiple units can be used for colder results. Installs in minutes and comes with silicone connection sleeve, hose clamps and connection/vent hose.

175 3522 3" OD	£176.51
175 3523 2.5" OD	£176.51

4 CRYO² TIMER SWITCH

Allows the user to adjust the on and off durations. Setting the timer accordingly will allow the components to stay cool for long periods of time. Each control can be set from 2 to 20 seconds. Includes wiring, connection terminals and instructions.

175 3524	£124.30

5 CRYO² PURGE KIT

Get the Nitrous look without the cost. A purge blast of CO^2 will turn heads! Mount in bonnet scoops, front grille, vents, etc. Complete with solenoid valve and all necessary fittings. The purge valve assembly connects to the system and sprays the CO^2 as the system operates. The purges come in single or dual vents and the supply line can be split multiple times for multiple bursts around the car.

175 3525 Single Purge	£150.86
175 3526 Dual Purge	£165.96

6 CRYO² FUEL BAR

Billet aluminium extension to the fuel line with a cryogenic chamber. The bar is charged with CO^2 and removes heat from the fuel as it passes through resulting in a colder fuel charge. The CryO² Fuel Bar comes in 6AN and 10AN (can be reduced for 8AN) fuel line size. Comes complete with vent plug, cryo-port plugs and connection/vent hose. Can be used alone or in conjunction with other components. It comes either anodised or polished.

175 3527 6AN Polished	£139.55
175 3528 6AN Red	£139.55
175 3529 6AN Blue	£139.55
175 3530 6AN Purple	£139.55
175 3531 10AN Polished	£169.72

7 DEI BOOM MAT

Simple and effective solution for eliminating squeaks, rattles, vibrations and unwanted engine and road noise. No surface preparation is required and is easy to install-simply trim to desired size and shape, peel backing and apply.

175 3532 12x11.5" 2 Pack	£31.35
175 3533 12x11.5" 4 Pack	£50.41
175 3534 12x11.5" 8 Pack	£88.55

DENSO

THE NEXT GENERATION HIGH PERFORMANCE SPARK PLU

IRIDIUM POWER

1 DENSO IRIDIUM SPARK PLUGS

The absolute cutting-edge. Iridium Power spark plugs have a unique electrode of 0.4mm which provides a stronger spark even at a lower voltage. This ensures the highest acceleration. Iridium is a precious metal that is used in the space industry. It is harder and more heat resistant than any other metal. An Iridium Power spark plug has a longer life. Due to better combustion your engine needs less fuel to give a better performance like faster acceleration.

Supplied in sets of 4 only.

IRIDIUM POWER™

MAGNECOR®

TECHNICALLY ADVANCED IGNITION LEADS

Magnecor ignition leads have a race proven background, continually crossing the finishing line 1st all over the world. These leads are designed as direct replacements for OE leads to overcome problems associated with limited life carbon conductors and poorly suppressed aftermarket spiral conductor leads. This keeps Magnecor in pole position when it comes to the latest advances in engine management technology.

Magnecor ignition leads are available for almost every domestic and import engine ever made or modified, plus they also offer a custom service for specialist needs such as racing, vintage, imports, restorations and industrial applications. Contact Carnoisseur for a Magnecor ordering guide.

MAGNECOR
Competition
Spark Plug Cable Set
EXCLUSIVE METALLIC INDUCTANCE EMI SUPPRESSED CONDUCTORS
FOR USE WITH BOTH RACE AND CONVENTIONAL IGNITION SYSTEMS

1 8mm ELECTROSPORTS 80 CABLE

Performance upgrade for road vehicles. Designed to improve original ignition system performance on road vehicles using either electronic engine management systems or carburetors. Ideal for LPG gas conversion engines. Excellent RFI and EMI suppression. Flexible high-strength all silicone construction will allow cable to fit into original 7mm lead holders. Please state make, model and year of vehicle when ordering. See table for applications and prices.

177 5352 from £25.73 set

2 8.5mm KV85 COMPETITION CABLE

Primarily designed for racing engines using racing ignitions, turbocharging and supercharging. Entire jacket made from aerospace extreme heat-resistant silicone rubber. Exclusive Magnecor 2.5mm Metallic Inductance Suppressed Conductor will suppress EMI indefinitely, allowing this cable to be used on road vehicles with any ignition. Can be fitted into most original lead holders. Please state make, model and year of vehicle when ordering. See table for applications and prices.

SplitFire

THE PATENTED PERFORMANCE SPARK PLUG

LIMITED LIFETIME PERFORMANCE REPLACEMENT WARRANTY
Only Splitfire¹ offers a limited lifetime performance warranty. Should a Triple Platinum plug or Twin Core lead ever fail, Splitfire will replace it with a new one absolutely FREE.

1 SPLITFIRE SPARK PLUGS £6.87 EACH

2 SPLITFIRE TRIPLE PLATINUM £10.52 EACH

1 SPLITFIRE SPARK PLUGS

SplitFire's open split on the ground electrode better exposes the spark to the incoming air/fuel mixture even if the spark occurs on the backside of the electrode. Further, the resulting flame kernel is not blocked by the ground electrode as in other plugs. The flame kernel not only travels sideways, but can also travel upwards through the v-notch into the combustion chamber. This allows for a larger and quicker flame development. Improved combustion of the air/fuel mixture as seen in better power, mileage and reduced emissions.

177 5367 (each) £6.87

2 SPLITFIRE TRIPLE PLATINUM

SplitFire is the only spark plug with 3 points of platinum, this virtually eliminates electrode wear to greatly extend SplitFire3 plug performance and life. As with the standard SplitFire plug the patented "V" groove ensures a more complete combustion of the fuel charge in the cylinder. More fuel is turned into power and not wasted in partially burned, emission causing exhaust.

177 5379 (each) £10.52

3 SPLITFIRE TWIN CORE IGNITION LEAD SET

- Fibreglass Braided Inner Jacket
- 100% Silicon Outer Jacket
- Kevlar Reinforced Spiral Core
- Improves performance at any RPM

FORGE DUMP VALVES

There are three types of dump valve, sometimes referred to as a Blow-Off Valve (BOV), available. All three serve the same purpose of releasing built-up boost pressure from the turbo. This allows the turbo to keep spinning when you let off the throttle and therefore improve response and extend the life of the turbo.

ATMOSPHERIC - SINGLE PISTON/DIAPHRAGM

Dumps the built-up pressure into the air and creates the famous racing car 'whoosh' noise. Single piston valves are for petrol turbo cars without an Air Flow Meter.

ATMOSPHERIC - TWIN PISTON

Suitable for petrol turbo cars with an Air Flow Meter. This uses counter balanced springs and dual pistons to prevent the valve from leaking air. Dumps to air as above.

RE-CIRCULATING (CLOSED LOOP)

Suitable for all petrol turbo cars. Re-circulates the air back into the intake system, therefore venting the built-up pressure, freeing the turbo, but keeping the net flow of air constant. You do not get the dynamic 'whoosh' noise but you do get an efficient performance increase.

1 ATMO SINGLE PISTON

Fast Road Dump Valve - suitable for ALL petrol turbo cars without an Air Flow Meter. Available in Silver, Red or Blue. (FMDV001)
176 2064 **£68.15**

With 360* adjustable vacuum pipe connection to help install in tight engine bay compartments. Available in Silver, Red or Blue. (FMDV001A)
176 2076 **£79.90**

Competition Style - large casing with allen key clamp-on top, rather than screw-on version. Available in Silver, Red or Blue. (FMDV002)
176 2065 **£84.01**

Competition Style with Filter - used where dirty air and particles are likely to get in to the valve vent system. Usually when mounted low near road, next to air vent or used off-road. Available in Silver, Red, Blue or Black. (FMDVF003)
176 2066 **£94.59**

NOTE: If you have any queries about which valve is suitable for your vehicle please call us immediately!

2 ATMO TWIN PISTON

Suitable for most cars with an Air Flow Meter. Available in Silver, Red, Blue or Black. (FMDV004)
176 2067 **£84.01**

Twin Piston with Filter - used where dirty air and particles are likely to get in to the valve vent system. Usually when mounted low near road, next to air vent or used off-road. Available in Silver, Red, Blue or Black. (FMDVF005)
176 2068 **£94.59**

3 PISTON CLOSED LOOP VALVE

Suitable for ALL petrol turbo cars with an Air Flow Meter. Available in Silver or Black. (FMDV006)
176 2069 **£94.59**

With 360* adjustable vacuum pipe connection to help install in tight engine bay compartments. Available in Silver only. (FMCL001A)
176 2077 **£108.69**

4 FAST ROAD CLOSED LOOP VALVE

Fitment Guide: All VAG 1.8T engines, all VAG 2.7 Bi-Turbo engines, Porsche 911/966.

Available in Anodised Black or Polished Silver. (FMCL007P)
176 2071 **£94.59**

5 TYPE RS VALVE

The ultimate dump valve kit! Includes everything so that the valve can be configured as a twin piton atmospheric or re-circulating closed-loop valve.

Extreme flow rate capability, utilising an amazing 2" bore. Ideal for tuned vehicles with large turbos or software upgrades. Adjustable ratchet top for fine tuning of variable spring. Positive and precise adjustment. 360 degree adjustable vacuum hose connector. Unique conical, progressive rate spring that can allow for 7 to 34 PSI boost. Available in Silver or Black.

VIPER TURBO
intelligent boost

Viper Turbos offer the highest quality replacement, hybrid and ball bearing turbos for a massive range of cars. Please call us or visit one of our stores to discuss your requirements.

REPLACEMENT TURBOS

Highest quality replacement turbos. Viper Turbos have a well deserved reputation for reliability, build and performance. Fantastic range and quick deliveries.

HYBRID TURBOS

If you have a turbo charged car and want big boost and big power, you need a hybrid turbo. In conjunction with a tweaked ECU massive gains are possible.

Please note, potential gains from fitting a hybrid turbo are massive but remapping is essential to get the correct air/fuel ratio.

BALL BEARING TURBOS

The ball bearing option was developed to improve the reliability of high output turbos. When high boost is used, there are great stresses on the centre housing bearings to keep everything in place. Using a ball bearing turbo is the best way to handle the added stresses and improve reliability. Reduced friction means the turbo spools up quicker. The very best drivability and throttle response, as well as reduced turbo lag, bullet-proof reliability and substantial power and torque gains. This can only be achieved by using true ball bearing turbochargers.

All units are supplied with a full guarantee.

VT coating is available for a surcharge of £117.50 meaning you can colour-code your new turbo to add style as well as power.

We can also supply Garrett turbos plus a full range of turbo accessories and fittings. Please enquire for your exact requirements.

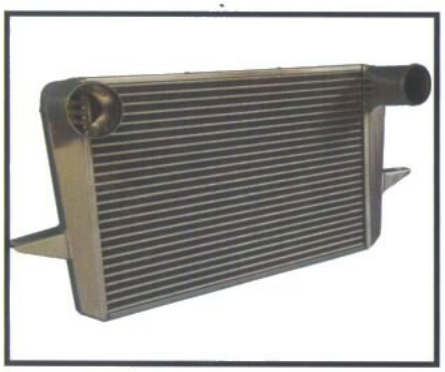
Intercoolers charge coolers radiators

Top Deck Combination Unit

This air to air to water combination intercooler, charge cooler has been designed to re-place the manufacturer's standard unit with gains in Torque and Bhp.

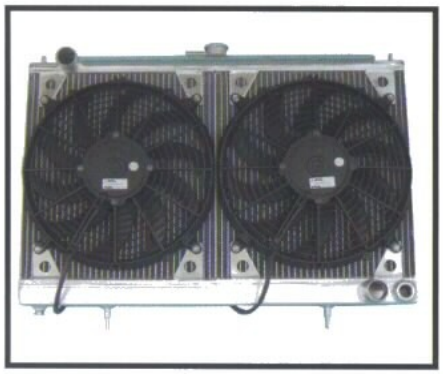
Example shown above: Subaru



50mm Intercoolers

This front mounted intercooler boast's our **new** in house 50mm core which has proven to be far more efficient than any other core that **we** manufacture at 88.6% and weighing in at only 4.7kg makes it the lightest on the market. Available for other makes and models where space is not at a premium.

Example shown above: Ford RS500



Aluminium Radiators

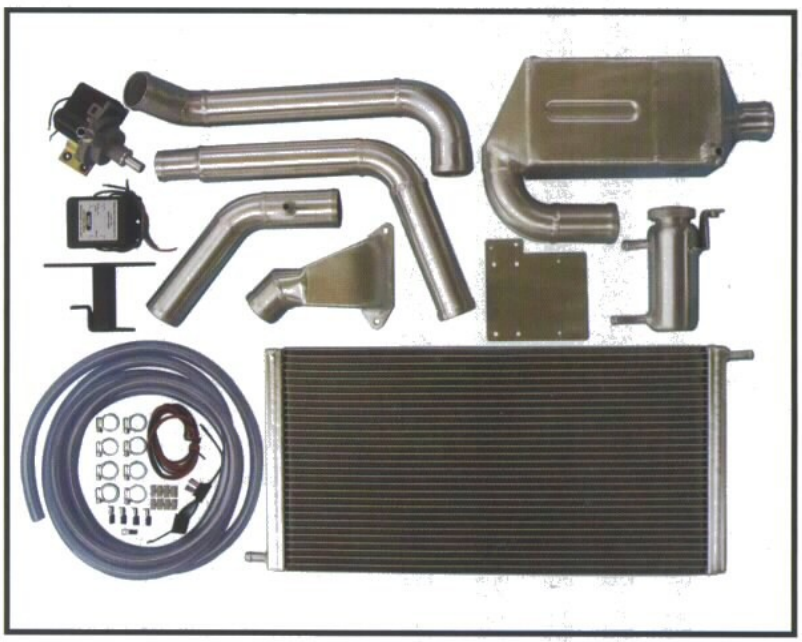
Direct replacement aluminium radiators manufactured in house from the raw materials to the finished product. All radiators manufactured to the same specification wether road or race application. So not only does your radiator look fantastic but it also gives you the ultimate in cooling and performance.

Example shown above

Intercooler kits

Front Mounted intercooler kits available for most makes and models. Lowers and stabilises air intake temperatueres to give increased performance. Supplied complete with **all** adaptors, aluminium pipework and silicon hoses. Easy fitment and all test from 30-50psi.

Example shown above: Nissan 200 SX S13/S14



Charge cooler kits

Charge cooler kits available for most makes and models designed in house to the highest specifications. Kit's supplied complete with pipes and hoses and a high flow water pump which is connected to an ignition switched live. These systems offer maximum efficiency in cooling ultimately increasing performance.

Pipercross
Performance Air Filters

1 AIR INDUCTION KITS

High performance filtration from world leaders Pipercross. Tailored for each car to achieve a smooth passage for air into the engine, therefore maximising the engine's power output. Instant results with increased BHP and throttle response. Full fitting kit supplied with every filter.

Choice of polished flat top or inverted cone vector top.

Please state make, model and year of vehicle when ordering. See table for prices and applications.

306 5030 from £45.99

2 VIPER INDUCTION KIT

Using technology used on the Lotus 340R, Pipercross have extended the range to a number of popular road cars. The Viper uses 'velocity air force' to channel cold air directly into the induction system. The cold air pipe feeds air from the front of the car straight into the filter system, whereas most after market induction systems breathe in air from the engine bay.

A Carbon Fibre surround keeps the Viper cool and the cooler the air, the bigger the increase in power. The carbon shell also looks stunning and will enhance any engine bay.

Please state make, model and year of vehicle when ordering. See table for prices and applications.

306 5029 from £199.00

3 VELOCITY INTAKE SYSTEM

Pipercross new Velocity Intake Systems have a brand new filter with increased surface area foam and a carbon fibre duct pipe.

The filter is placed in an area of high flow volume cold air to product maximum power with fantastic underbonnet looks.

Please state make, model and year of vehicle when ordering. See table for prices and applications.

306 5056 from £239.00

4 PK7000 UNIVERSAL KIT

Universal air induction kit. High flow filtration with spun alloy base with 88mm neck. Supplied with 4 polyurethane neck reducers (75mm, 70mm, 65mm, 60mm).

306 5032 £59.95

5 VENOM UNIVERSAL KIT

Universal sealed air feed system. Powder coated alloy heatshield. Spun alloy 150mm base with 88mm neck. Supplied with 4 polyurethane neck reducers. (75mm, 70mm, 65mm, 60mm). Cost effective alternative to tailored Viper option.

306 5031 £119.95

6 REPLACEMENT PANEL FILTER

Direct replacement high performance air filter elements. Simply remove your old filter from the air box. Vortex designed outer surface area will absorb dirt particles whilst still allowing air to flow freely.

• Easy to fit • Extra Power • Used by World Champions

Available for most UK cars. Please state make, model and year of vehicle when ordering.

1 UNIVERSAL GREEN DIAMOND FILTERS

Top of the range high profile filter. It has a polished aluminium end cap and base. It is available in three sizes and if you want your air filter to really stand out from the crowd then this is the one for you. No fixings supplied. See table for sizes, prices and part numbers.

2 TWISTER FILTERS

A revolutionary filter with an integrated heat shield which helps to funnel as much air into the filter as possible. Creates a vortex to maximise the air flow through the filter, it also acts as a shield to protect it from engine bay heat. Available in 5 different inlet hole diameters: with a choice of 5 different shield covers: silver, red or blue anodised aluminium, real carbon fibre or clear acrylic. See table for prices, sizes and part numbers. (Not suitable for Turbo applications)

3 TWISTER COLD AIR DUCTING KIT

Can be fitted to all Twister filters. This will ensure as much cold air as possible is directed into the filter, thus improving performance. Supplied with fixing bracket. Filter not included. Three sizes available to suit Standard, XL and XXL Twister Filters.

159 4563 to fit Twister £41.13
159 4577 to fit XL Twister £45.83
159 4578 to fit XXL Twister £58.74

4 FORCED AIR INDUCTION SYSTEM

Developed by the Citroen Motorsport Team this new "sealed" air induction system forces as much cool air into the engine bay as possible. The filter sits inside the sealed ABS funnel which protects the air flow from engine bay heat and helps force the cool air through the filter. See table for prices and applications.

159 4579 FROM £139.99

5 BREATHER FILTERS

Cylindrical shape breathers from Green. Various sizes available with 8mm, 10mm or 15mm inlet.

159 4569 FROM £17.99

6 'TOP HAT' ADAPTORS

These adaptors can be used to bolt directly to the air inlet opening and provide a strong and secure mounting point for the cone filter of your choice. The range includes 15 versions so please contact us with your requirements.

159 4565 FROM £10.99-£23.49

7 GREEN CLEANER KIT

Contains Cleaning Fluid (0.5ltr) plus Filter Oil (300ml) to make sure your filter offers perfect performance. We strongly recommend you clean and re-oil your filter every 5,000 miles.

159 4564 £12.99

8 UNIVERSAL ALLOY TUBES

A range of brigh finished alloy tubes ideal for constructing your own induction system or modifying your original one. Available as 45° bends, 90° bends or straight sections in a wide range of diameters. With a 1mm wall thickness these tubes offer a lightweight alternative to stainless steel tubes whilst still giving great engine bay look. (These tubes should only be used for air inlet applications).

Part No. 159 4566

9 COLD AIR FUNNELS

Designed to be mounted externally on the vehicle, either in the bumper, lower front valance or the side wings of the vehicle. Easy to fit, simply attach flexible ducting to the base of the funnel by using a fixing clip and then direct the cold air to where it is required, either to the air filter, air inlet or brakes. Directing cold air to these areas can increase performance. Supplied in pairs, four different sizes are available in 3 colours. Colours: Polished Silver, Blue or Red (Ducting and clips not included.)

5 DYNA-TWIST INDUCTION SYSTEM

New sealed induction system improves air flow and air density which increases the volume of air drawn into the cylinders. The ECU unit then increases the fuel flow rate to maintain the air-fuel ratio which then produces greater combustion in the cylinders thus giving more power. Tailor-made for each model and offers all the benefits of a sealed induction system. Cold air tubing is supplied with each kit and should be positioned at the front of the engine bay to channel cold air. The top of the filter has a twist to spin the air into a vortex for improved flow through the filter. The alloy shield protects the air inside from the heat of the engine so that as much cool air is delivered to the engine as possible. Avaialble in Silver, Blue, Red, Clear or Carbon.

BMC Air Filter

BMC the winners choice

1 BMC AIR FILTERS

BMC produce a full range of cone & panel filters for most cars. Please enquire in store for price and availability. These filters are made to withstand the same physical forces and temperatures as experienced in the most demanding race conditions. BMC developed the material that holds the filter mesh to give a perfect seal and remain flexible under racing conditions. The mesh is lacquered aluminium wire to prevent distortion and corrosion. The filtrate is chosen to give maximum airflow whilst preventing the smallest dirt particles from entering your engine.

See table for examples of prices and applications. See enquire if your vehicle is not listed.

2 BMC CARBON DYNAMIC AIRBOX

BMC has been closely working with race development teams to find the best possible air intake solutions. From this work was evolved the amazing Carbon Dynamic Airbox which has universal applications and the most effective performance available.

The CDA has a real Carbon fibre housing with excellent heat insulation properties which contains a cylindrical oiled cotton filter designed to optimise the even flow of air with a smooth exit out to the engine. The improvement in power and torque is outstanding.

The CDA is supplied with a full fitting kit including a flexible alloy tube for the cold air feed.

See table for prices and applications. Universal CDA Kits also available, see table.

306 5034 from £153.51

3 NEW DIA SYSTEM

For engines up to 1600cc. Intended as a replacement for the popular cone filter induction systems. The result is better performance and a smoother engine.

Available for a wide range of vehicles. Please enquire for your specific vehicle.

306 5041 £94.00

1 JETEX DIRECT AIR INDUCTION KITS

Allows faster intake of air. Unleashes a true sporty induction sound. Superb air-flow and filtration. Extensive range available.

See table for example applications and prices.

306 5028 from **£53.00**

2 JETEX PERFORMANCE AIR FILTERS

Hi-flow cotton-gauze filters. Pre-oiled and ready to fit. Superior air filtration over standard paper filters. Excellent dust retention maintains filter performance.

Available for all makes and models of vehicle, please call for details.

158 2008 from **£25.00**

3 JETEX DIRECT COLD AIR FILTRATION KITS (DCAF)

Enhanced air intake through an integrated inverted end cone. Cold air feed pipe attaches directly to the cone, creating a dense, cold air stream to improve engine performance.

Universal fitting means kits can be adapted to many applications.

306 5042 from **£117.50**

4 JETEX CONES AND DOUBLE ENDED COLOUR CONES

Hi-flow cone filters for air-flow meters and piping from 8mm to 155mm. Can be supplied with rubber or chrome ends. Complete with jubilee clips.

Breather filters from 8mm to 25mm also available.

Colour filters can be ordered in Red, Blue, Black or Yellow.

Inverted cone maximises filter surface area and air intake.

306 5043 from **£14.00**

5 RAPID TDI TUNING MODULES

Gain up to 25% torque/bhp. Optimises engine performance. In most cases, simply plug in the tuning module! Each module supplied with an on/off switch. No engine modification necessary.

306 5044 from **£325.00**

1 SAMCO SPORT HOSE KITS

The Samco Sport Hose Kits provide a unique opportunity to upgrade your engine hoses to a product that is simply un-rivalled worldwide for performance and looks. With over 200 applications for the most popular cars, these direct replacement silicone hoses are available in 7 striking colours to blend with your engine the way YOU want. Whatever colour you choose just remember, you're fitting the finest turbo and coolant silicone hoses that are designed to perform under pressure. Superb integrity and superior performance reduces the risk of component failure and enables higher temperatures and pressures to be maintained with complete confidence.

An evolution of the excellent Samco motorsport range these performance kits are the ultimate in turbo and coolant hoses. Made from reinforced multi-layer silicone rubber they are designed to take the punishment.

All Samco Sport hoses are produced in a high gloss finish and are available in the standard Samco Sport Blue or optional Black, Red, Green, Purple, Bright Yellow and Orange. Please state make, model and year of vehicle plus colour required when ordering.

1 MAXOGEN AIRFLOW SYSTEMS

Revolutionary kits that enable cold, dense air to reach the fuel metering unit more efficiently.

These remarkable units can deliver as much as 9% more effective peak power at the wheels, and in some cases at 500rpm less revs in doing so.

This range is increasing on a regular basis so please get in contact with us if your car is not listed.

ITG fully road test all prototypes to prove their durability and performance, and each kit is tested on the rolling road to fully enhance it's capabilities for that particular car. This means we are able to offer power and torque graphs for each kit we supply.

Most kits come with a carbon fibre housing but in some cases an E-glass AB65 (pre preg glass fibre) at a slightly lower cost.

Each silicon hose is designed and made for each specific application. All aluminium parts are anodised and stainless steel or plated screws, nuts and washers are used to fully enhance the appearance and durability of each kit.

2 PROFILTER DIRECT REPLACEMENTS

Over the years, ITG have created the lightest, most capable filters for all fields of motorsport, from Formula 1 to the World Rally Championship.

The same design skills, advanced technology and attention to detail are also used to produce our Profilter range of high grade replacement filters for both road and competition use.

With such a pedigree, you can be sure of a quality product with a superior performance – and a highly competitive price.

K&N PERFORMANCE FILTERS

High flow and long life - with total protection guaranteed. K&N's famous track record in designing and manufacturing high quality air filters is second to none. All K&N filters are washable, provide superior filtering and give up to 40% more flow.

1 REPLACEMENT ELEMENTS

Replaces the standard paper element in your existing airbox with a free flowing long life filter - million mile on road guarantee and up to 100,000 miles between cleans. Increased power and response.

TYPHOON INTAKE SYSTEMS By K&N

1 REPLACEMENT ELEMENTS FROM £32.41

2 TYPHOON INDUCTION KITS FROM £174.90

3 APOLLO INTAKE SYSTEM

The Apollo is a complete universal cold air system incorporating one of K&N's cotton gauze filters. The housing is made from co-polymer and Black K resin, which avoids heat build up thus keeping the intake charge cool. The Apollo has been designed by K&N's own motorsport design team and features a specially designed shape, which increases volumetric efficiency. The Apollo has the capability to handle over 300 BHP. Comes with a 70mm cold air feed hose, and filter housings are available in Blue, Red or Silver. (RC-5051A)

306 5051 £199.75

Stepped adaptor available to allow fitment to different sizes intakes. Plus Apollo mounting bracket.

306 5052	70-80mm	£11.74
306 5053	70-70mm	£11.74
306 5054	70-60mm	£11.74
306 5055	Mounting Bracket	£11.74

2 TYPHOON INDUCTION KITS

Highly engineered free-flowing intake systems designed to provide colder denser air for more power. Typical power gains from 5-15bhp! The induction pipe is available powder coated Red, Blue or Silver with an option of a highly polished finish.

306 5026 from £174.90

4 57i INDUCTION KITS FROM £41.47

4 57i INDUCTION KITS

For fuel injected cars. Looks good and sounds superb. Replacing the restrictive standard air intake and airbox design with a simple, high-flow induction system unleashes your engines potential to produce more power. The unrestricted air flow increases performance, improves throttle response and gives a crisp induction roar.

306 5027 from £41.47

5 GEN2 INDUCTION KITS

The sealed air box is force fed from the front of the vehicle with cold dense air. The one piece moulded ABS plastic induction pipe ensures the air entering the engine does not increase in temperature - giving maximum possible horsepower.

Many kits available with more under develop-ment. Please enquire for further details.

JR Filters

JR Air Filters

- Second to none for quality of construction and stunning good looks.
- Ease of fitment
- increase your engines power output
- quick throttle response.
- Lifetime warranty and technical support

MTX Clutches

SERIOUS TRACTION!

Specially for modified street cars which are notoriously hard on their clutches, due to the high torque output.

- Lightweight - low inertia
- Good gear change speed
- High friction
- Good drivability in traffic
- Improves engine response.

Available for Mitsubishi Lancer Evolution and Subaru Impreza Turbo plus others.

fidanza

Short Throw Shifters
30% shorter throw. Precise, smooth and accurate shifting. • Chevy, Ford, Honda, Hyundai, Mazda, Mitsubishi, Mini, Nissan, Subaru and Toyota

Adjustable Cam Gears
For precise timing
Choice of polished aluminium, anodised red, blue or black

ARP automotive Racing products

ARP have been making bolts and fasteners in the USA since 1968 and are the fasteners of choice of NASCAR racers, F1 teams, CART teams and drag racing engine builders. More recently they have become popular with 'fast road' tuners and offer an extensive range of fitments for Japanese applications.

Rod Bolts
ARP rod bolts are used extensively in all types of racing where their quality and durability have proved a winning formula. Also ideal for high performance road use - especially in high boost turbo applications.

Head Studs
Virtually every top professional engine builder relies on ARP head studs for their competition power plants.

Head Studs
Virtually every top professional engine builder relies on ARP head studs for their competition power plants.

Main Studs
There are many reasons to use ARP main stud kits including elimination of main cap walk and fretting, as well as protecting the threads in your engine.

Compressor Rings
The modern way to install piston rings quickly and accurately. Easy to use. No moving parts to seize or break.

ARP applications include BMW, Ford, Honda, Mitsubishi, Nissan, Opel, Porsche, Toyota, Subaru and Volkswagen.

Misano

Reclining Sports Seat for Fast Road Use

The new Misano from Cobra redefines the ultimate road seat. A unique hybrid composite/steel reclining seat with tilt forward facility and superior recline mechanism. This brand new design is available in three forms:

- **Touring Spec** - Silver carbon reinforced back and rock fabric/suede-tec upholstery.
- **R1 spec** - Lightweight with a pure carbon back, rock fabric and Alcantara trim, weighing less than 10 kgs for a recliner!
- **Lux spec** - Full leather covered, carbon backed seat for fitment in the finest cars. Available in Black or Grey quality leather. Any colour choice or combination of leathers available to special order at an additional cost. Please enquire for details.

All Misanos have a removable grommet for occasional use of 4-point harness if required for track day use. The hole simply plugs for weekday use with a normal 3-point seatbelt.

Many additional options and features available. Please enquire for details and prices.

Aqua 4x4

Fixed Back Competiton/Off Road Seat

- Full composite construction lightweight shell
- Suitable for all competition use
- Full 5/6 point harness facility
- Sidemounted only to Cobra alloy side mounts

Based on the legendary lightweight Imola composite shell, the Aqua 4x4 fulfils every expectation for today's Off-Roaders and Power Boat Racers. Supreme comfort, huge lateral location and a seriously rugged design provide maximum comfort and support in the most demanding of environments. Add to this a heavy duty one-piece water and fade resistant vinyl cover, the choice of two widths with full FIA approval and the Aqua 4x4 becomes the only choice for these extreme sports.

COBRA TECHNOLOGY®

A shell weight that challenges convention.
A level of comfort beyond your dreams.
Support and location that defies belief and a strength beyond comprehension.
Cobra Technology® will redefine your expectations of a Motorsport seat.

Designed through years of extensive research with professional race and rally drivers, Cobra believe that the ultimate seat is now available for all types of Motorsport.

Cobra Technology® is available in Imola, Suzuka and Evolution format in two widths. The shell weights start at 3.75 kilos for the Imola reaching just 5.1 kilos for the heaviest design, the Evolution. Each shell is manufactured in pure carbon, using revolutionary moulding techniques and unique processes to produce an individually numbered masterpiece of composite engineering.

Added to the shell is a dual density, three layer structure of Confor® foam. Confor® foam is a unique material and under sustained pressure and exposure to body warmth will soften and flow, conforming to a driver's body. Unlike normal foam, Confor® will dissipate impact energy, instead of recoiling and amplifying it. The result is the filtration of all vibration and impact energy, whilst the seat is still telling you exactly what the car is doing.

Finally, each seat is trimmed in Alcantara™ probably the finest fabric available.
It's appearance, performance and tactile feel are unrivalled by any other material and to protect your investment, real leather is used on the areas subjected to the most wear.

The result is probably the finest seat in the world and it feels and behaves like it was made for you.

Cobra Technology®.
Now your unfair advantage is your seat.

Confor® is a registered trademark of EAR Speciality Composites, an AEARO company.

LOCKWOOD

1 STAINLESS STEEL SILL PROTECTORS

Manufactured from the highest quality materials (bright annealed, 20 gauge, 304 grade, non-magnetic stainless steel).

These plates fix to the sill by means of powerful adhesive pads and each sill has the car logo engraved to a high standard.

- Protect vulnerable paintwork which is most exposed to daily wear and tear.
- Cover previously damaged paintwork.
- Enhance the car's appearance and add that 'touch of class'.
- Easy to fit (no drilling required).
- Excellent value for money.

Please state exact year, make, model and number of doors when ordering.

PIAA

1 XTREME WHITE PLUS BULBS

The very best in upgrade bulbs. As the name implies, these bulbs are Xtreme! Upgrade your bulbs for a brighter crisper white light – the closest performance to H.I.D. (High Intensity Discharge) Lamp systems at a fraction of the cost. Supplied in pairs. (Not E-marked)

2 CHROME MIRROR WHITE BULBS

Another innovation in bulb technology from PIAA. The Chrome Mirror White range provides a new dimension in automative lighting. At night, the Chrome Mirror generates a crisp, clean, intense white light. By day, it ensures that no colour can be seen in the headlamp reflectors, therefore not effecting the aesthetic appearance and design of modern and fashionable headlamps. Supplied in pairs.

3 PLATINUM WHITE BULBS

NEW! High efficiency halogen bulbs emit a pure-white colour that is closer to natural sunlight than standard bulbs. Very high quality. All Platinum White bulbs are E-Marked. See table for prices. Supplied in pairs.

4 MIRROR ORANGE INDICATORS

Illuminates orange but mirror finish when not lit. Ideal for clear headlights, tailights. Supplied in pairs.

150 5499 Bayonet H347 £26.46
150 5500 Capless H346 £26.46

5 LEDS BULBS

PIAA LED Bulbs are direct replacements for the W5W capless side lamp bulb, also used as indicator and interior/dash lamp bulbs. Two LEDs per bulb. Available in Blue, Blue/White and White. Ultimate high intensity LED with extremely low power consumption. Extra long life and easy to fit. Supplied in pairs.

150 5533 Blue/Blue £20.50
150 5534 Blue/White £20.50
150 5535 White/White £20.50

TERA LED WEDGE BULB

A first in LED technology. 1 watt LED, yet is the brightest LED on the market! Available in 501 wedge bulb fitment suitable for side lights. Supplied in pairs. (H370E)

150 5595 £37.98

6 INCANDESCENT RANGE (not shown)

Utilise Xtreme White technology. Suitable for a wide range of applications; side lamps, brake lights, indicators, marker and interior lights. Supplied in pairs.

150 5589 T10x31 10W £13.27
150 5590 T16 single filament 18W £12.46
150 5591 T20 single filament 27W £14.79

7 SPORT HORN

Dual tone motorsport electric horn.

172 2010 400Hz/500Hz (low tone) £27.26
172 2011 500Hz/600Hz (high pitch) £27.26

8 P9000 HALO

100mm round lamp with a long range drive beam pattern and LED halo ring. Looks great day or night. Complete with all wiring, switches and relays.

150 5001 pair £227.16

9 1100X DRIVING LAMP KIT

Compact design allows easy installation. High output 55W XTRA halogen bulb performs like an 85W bulb. Available with either Clear or Blue lens. Chrome plated housing. Approaches the brightness and intensity of H.I.D. lamps at a fraction of the cost. Supplied in pairs. (height: 78.5mm, width: 65mm, depth: 76mm).

150 5390 £191.57

10 SILICONE WIPER BLADES

Using these Silicone Wiper Blades for just 30 minutes will give a silicone coating to your windscreen. This coating repels rain and snow, greatly improving visibility during extreme weather conditions. 100% silicone. Will not perish or deteriorate in performance. Also eliminates the annoying wiper noise as the silicone glides smoothly across your windscreen.

Universal blades available in 11 different lengths, 15"-28" (check original fitment before ordering). Available in Black or Carbon-look. Supplied individually.

New curved silicone wiper blades now available to suit VW, Seat, Audi and Alfa. Black only. 18", 19", 20", 21" and 22".

See table for sizes and prices.

SCREEN CARE

PIAA Screen care products are designed to work with the PIAA Silicone Wiper Blades, designed with major motor sport teams to help assist with improving vision in difficult driving conditions.

11 PIAA VISION SCREEN WASH

Contains a special formula with silicone to improve the coating when used with PIAA wiper blades, unlike standard screen wash which removes the coating each time it is used.

173 4537 350ml £5.99

12 VISION SCREEN CLEANER

Based on the screen wipes that are supplied with the wiper blades this enables you to prepare the screen for use with the PIAA wiper blades and the Vision Screen Wash and the Vision Protect & Coat.

173 4538 250ml £5.99

13 VISION SCREEN PROTECT AND COAT

This is a screen coating that can be used to coat all glass and visors with a coating that requires less use of the wiper blades or wiping of a visor and when used in conjunction with the PIAA wiper blades protects and adds to the coating the blades apply to the screen with each wipe.

Advanced Performance Solutions

WHY CHOOSE THE APS H.I.D. KIT?

- Up to 3 times brighter than Halogen bulbs
- Easy installation
- Draws less overall power
- Xenon outlasts halogen by up to 6 times
- Improved visibility
- CE approved Ballasts
- 14 month warranty
- Full technical support

APS H.I.D. CONVERSION KITS

H.I.D. lighting is now available as an aftermarket solution for all makes and models of vehicle.

APS H.I.D. kits offer extreme performance, 200% more light than conventional lighting, in an affordable and easy-to-fit package. The HID bulb slots straight into the existing bulb holder and uses the existing power supply (no need to install extra cabling!). The ballast pack fits neatly behind the headlamp.

Simply select the type of halogen bulb you currently use (e.g. H1, H3, H4) from the table below, which will contain everything you need to install the system and instantly benefit from increased visibility, safety and stunning appearance.

Achieve the crisp performance as seen on luxury BMW and Mercedes vehicles. Extreme output and less electrical draw than standard main beam lamps.

Compared to normal filament halogen lamps the HID lamp has 3 times the luminosity, 5 times increase in life span and 50% reduction in power consumption. Since the HID system consumes only 35W of power, it contributes to lower fuel consumption and greater efficiency and safety.

Replacement HID Bulb sets also available for cars with factory fitted HID systems.

Please see table for prices and bulb options.

EACH H.I.D. KIT COMPRISES

- 2 Ballasts • 2 Igniters
- 2 hi/lo beam controllers (H4 kits)
- 2 H.I.D. Xenon capsules
- Wiring loom and connectors
- Upgraded fuse
- Mounting plates, cable ties, adhesive pads, etc.
- Waterproof grommets
- Installation instructions

LSD DOORS

LSD is the first company worldwide who offers a complete engineered programof spectacular tailored gull wing door solutions. LSD is worldwide patented and installation is as easy as bolting on the product. Its the benchmark for a "readyto install" solution.

These are highly engineered, good quality products. The simple way to give your car wings and create that exotic 'Lambo-Look'.

After simply removing your original hinges the LSD will mount in your original bolt holes. 3D adjustment options provide accurate adjustment / refitting of the doors, so the installation is 100% accurate every time and will not be visible from the outside.

These LSD kits use your factory door latch and lock so there will be no wind noise, no panel gaps, no water leaking and no problems. LSD is such a perfect solution; your doors will open smoothly with minimal effort. Your door will first open outwards to a pre-adjusted angle and then smoothly it will be guided upwards by the high pressure gas lifters.

TUV approved. See table for prices and applications.

I-POD PACKAGES

Connecting your Apple i-Pod to your car stereo is simple! All of the aftermarket headunits shown in this catalogue are i-Pod compatible, meaning they just require an adapter lead. One end plugs into the back of the stereo in the CD changer input, the other end is then run through a convenient place in the dash ready to plug into your i-Pod.

The headunit can then control track selection and a host of other functions. The JVC headunit also features a dedicated clicker wheel on the fascia!

1 ALPINE CDA-9850Ri

'Full Speed Connection' for iPod feature is Alpine's third-generation solution for integrated iPod use in the car.

It works via a simple cable that directly links an iPod without a bulky hideaway box. Lets users control their iPod through the head unit, with the experience being more like directly interfacing with the iPod itself. Enhanced features include 200 percent faster data transmission for quick and easy file navigation, as well as full-tag artist, album, song and playlist information displayed directly on the head unit, all while charging the iPod battery.

Alpine's exclusive Quick Search function allows for quick navigation by playlist, artist, album or song. It's built in high power 50 Watts x4 amplifier ensures premium sound quality whether it be the iPod connected or playback of CD, MP3 or WMA files. No additional adapters required.
